Power steering

Power Brakes

Padded dash

Engine: 324 CI - 202 HP Rocket V8

Produced: 38,363

Weight: 3,924

The car is in original condition, only painted once maintaining its original factory color Glenn Green & Polar White. I'm the second owner, the original owner was an old lady from Indiana who only drove it in the Summers and stored it the rest of the year. The car only has 21,686 miles. It's a weekend driver and kept as such, purely driven for fun and all the family joins in. Have participated in many shows: Miami Beach Deco, Miracle Mile, Downtown & Cauly Square, participated in the 2006 Auto

Show, the UM homecoming parade and the Key Biscayne 4th of July parade. My 12 year old daughter who was only 3 when I got the car is in love with it, so she'll be the next owner. Always get a "thumbs-up" from small kids, they think it's a cartoon car coming to life. Makes me and especially my daughter, Sofia very happy see people smile and old folks reminisce when they see the car. Have given plenty of strangers free rides just for fun. Cool Sunday morning rides are the most fun with all the windows rolled down, listening to Frank Sinatra on the radio.
